Art Unit: 1724

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On line 20 of claim 4, "said second three-way ball valve" lacks antecedent basis. It is suggested that "said second three-way ball valve" be changed to --said second three-way valve--.

On line 28 of claim 5, "said coupling means" lacks antecedent basis. It is suggested that "said coupling means" be changed to --said coupling--.

On line 32 of claim 5, "said first and second ball valves" lacks antecedent basis. It is suggested that "said first and second ball valves" be changed to --said first and second valves--.

On line 33 of claim 5, "the first and second ball valves" lacks antecedent basis. It is suggested that "the first and second ball valves" be changed to --the first and second valves--.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed (see M.P.E.P. 1444).

Art Unit: 1724

Claims 1 and 4-6 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

It is noted that the supplemental declaration should be signed by an officer of Mueller Steam Specialty Corporation to which the subject patent is assigned (see M.P.E.P. 324).

The following corrections to the claims must be made to ensure that all of the original text of the original claims is present:

On line 22 of claim 4 "[and]" should be deleted;

On line 23 of claim 4, "said" should be changed to --, said--;

On line 20 of claim 5, "[, and]" should be changed to --[and]--;

On line 26 of claim 5, "housing]" should be changed to --housing,];--;

On line 31, "said first notch" should be changed to --[sad] said first notch--.
